

Quick Start Guide for MetaTrader 4 iPhone/iPad/iPod Touch

This guide provides 2 easy steps how you can:

1. Install [MetaTrader 4](#) trading application on the iPhone mobile device;
2. Connect to our MetaTrader 4 Servers using MetaTrader 4 App for trading.

Installation:

Run the App Store program in iPhone/iPad/iPod touch device and search for [MetaTrader 4](#) Application developed by [MetaQuotes Software Corp.](#) in App Store:

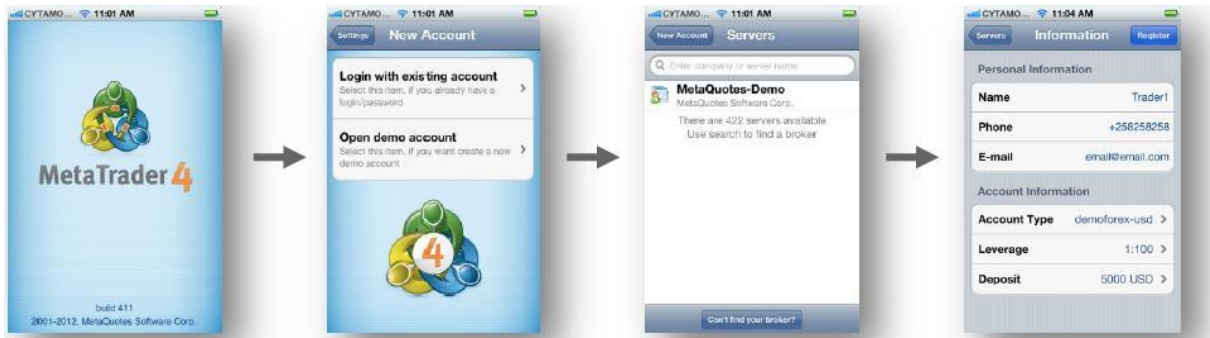

Select the [MetaTrader 4](#) application developed by [MetaQuotes Software Corp.](#) and proceed with program installation:

For installation Press FREE Button, then INSTALL button. The [MetaTrader 4](#) Application developed by [MetaQuotes Software Corp.](#) will then be installed on your Apple mobile device.

Connecting To Our MetaTrader 4 Server

Start MetaTrader 4 Application, choose whether to "login with existing account" or "open demo account", and enter **STS Finance** into the search field to find and display our MetaTrader 4 Servers in the list.

Once STS Finance's MetaTrader 4 Servers are displayed in the list of Servers, select appropriate one to proceed next:

- If "Login with existing account" option was chosen, the next page will ask to enter login and password of an existing account to login (Sign-in) into selected MetaTrader 4 Server.
- If "Open demo account" option was chosen, the next page will ask to provide personal and other details to proceed with registration of new demo account on selected MetaTrader 4 Server respectively.

Note! Once the account is connected to one of STS Finance's MetaTrader 4 Servers, company's servers will be saved automatically in the list of servers of MetaTrader 4 Application for the user.

That's it!

MetaTrader 4 Application is a fully-functional mobile Application and it's absolutely free!
